GENERATOR WASTE PROFILE

SECTION 1 – WASTE GENERATOR *(Waste Generator Must Complete)*

Company Name _____
 Generator Site Address _____
 Generator Contact Name _____
 Phone No. _____ E-Mail Address _____

SECTION 2 – TRANSPORTER *(Hauler or Waste Generator Must Complete)*

Company Name _____ Address _____
 Transporter Contact Name _____ Phone No. _____

SECTION 3 – WASTE DESCRIPTION/PROPERTIES *(Waste Generator Must Complete)*

Waste Description _____

Estimated Waste Weight or Volume _____ Tons Cubic Yards Gallons

Transported By: Debris Box Dump Truck Vacuum Truck Drum (type/size) _____ Other _____

Waste Properties *(Check all that apply)*

Solid Semi-Solid Sludge C & D Debris (mixed) Color(s) _____
 Powder Liquid Soil other _____ Percent Solids _____

Laboratory Analysis *(MRWMD reserves the right to require the Generator to perform additional analytical testing.)*

Sampling Date _____ Laboratory _____

Analytical Report Attached (check-all that apply) CA Title 22 Metals Volatile Organics TPH Gas/Diesel
 BTEX PCB's Semi-volatile Organics Herbicides/Pesticides Other _____

SECTION 4 – Generator Certification *(Waste Generator must complete)*

- | | YES | NO |
|---|--------------------------|--------------------------|
| 1. Is the waste represented by this waste profile sheet a "Hazardous Waste" as defined by USEPA? | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Does the waste represented by this waste profile sheet contain regulated radioactive material or regulated concentrations of Polychlorinated Biphenyls (PCBs)? | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Does this waste profile sheet and all attachments contain true and accurate descriptions of the waste material? | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Has all relevant information within the possession of the Generator regarding known or suspected hazards pertaining to the waste been disclosed? | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Is the analytical data attached hereto derived from testing a representative sample in accordance with 40 CFR 261.20(c) or equivalent rules? | <input type="checkbox"/> | <input type="checkbox"/> |

This is to certify that the waste material described herein is classified as Non-Hazardous and is not subject to Federal and California regulations for reporting proper disposal of hazardous waste. Our company hereby agrees to fully indemnify the MRWMD against any damages resulting from this certification being inaccurate or untrue.

Printed Name & Title of Authorized Agent _____
 Signature of Authorized Agent _____ Date _____

FOR MRWMD USE ONLY *(District Weighmaster to complete)*

Weighmaster Signature: _____ Landfill Liquid Waste Area
 Weigh Ticket No. _____ Date: _____

NOTICE TO CONTRACTORS

Disposal Fee for Marginal Landfill Cover Materials, Such as Petroleum Contaminated Soil (PCS), Well Drilling Mud, Harbor/Lake Dredging Materials

(Effective January 1, 2009)

The District accepts petroleum contaminated soils, well drilling mud, harbor and lake dredgings, and other minimally contaminated soils for use as a marginal landfill cover. The disposal fee for these Marginal Cover Materials (MCM) is \$10.00 per ton, with a \$15.00 minimum charge. In addition to the \$10.00/ton disposal fee, there is a processing fee of \$100.00 per project site.

The following conditions apply:

- MCM is subject to prior approval for waste acceptance, including the submittal of a Generator Waste Profile.
- The District does not accept materials that are defined as hazardous under RCRA or CCR Title 22.
- Contact the District at 831-384-5313 for testing requirements and contaminant threshold limits.
- MCM must have a moisture content of less than 50% by weight.
- If the moisture content of the material is greater than 50% by weight, the material may be accepted at the liquid waste rate of \$46.25/ton.
- MCM must have less than 1% debris by volume.
- MCM containing debris of greater than 1% by volume may be accepted at the regular solid waste rate of \$46.25/ton.

NOTE: Clean soil is accepted at the rate of \$1.00/ton if it contains less than 1% debris by volume (such as large size rocks, large size tree roots, construction/demolition debris, etc), has a moisture content of less than 20% by weight, and has no chemical contamination (such as lead, petroleum products, and pesticides).
